About Presto Tapware

**Presto timed flow tapware** is a stylish robust addition to any commercial and public washroom, featuring inbuilt water saving technology.

**Main features of Presto Taps**
- Automatic shut-off to save water
- Pre-set flow times to reduce water use
- Timed flow, push-button, mixer, lever and sensor activated options

**Key Benefits of Presto**
- Water Savings
- Comfort & hygiene
- Vandal Resistance
- Reliability
- Easy Maintenance

**Standard & Security Versions**
Most Presto taps and valves are available as standard or security versions. Standard versions activate water flow as soon as the button is pushed, while security versions will not activate water flow until the button is pushed and released.

**WELS Registration**
Presto taps and valves are WELS registered (Water Efficiency and Labeling Standards Scheme) with a 5 or 6 star rating.

**Warranty**
2 years subject to manufacturer’s conditions.

**More Information**
Download product manuals, data sheets, specification sheets, line drawings and brochures from our website.
